

# Make A Bark-Boat

We Gallavants love to sail across Clearwater Pond! Bark-boats are easy and fun to make.

1. Find a good piece of bark under a pine tree. Only take what's fallen off, otherwise you can hurt the tree.

2. You'll need a thin wooden stick. BBQ skewers work well too.

3. Put a little ball of play-dough in the center of the bark and mash it down around the edges so it stays.

4. Find a beautiful leaf and carefully put the point of the stick through it.

5. Then push the end of the stick into the play-dough and there it is! Your Gallavant Bark-Boat.

6. Sail it in a slow stream or in the tub if you're allowed.

You'll need:

- A piece of bark
- Playdough (the kind that stays soft)
- Thin wooden stick
- A Beautiful leaf
