

Make Your Own Gallavant™

You'll need:

- Playdough (the kind that bakes or hardens)
- Tooth-picks and match-sticks
- Paint

1. Make three different sized balls. A $\frac{3}{4}$ " ball, a $\frac{7}{8}$ " ball, and a $1\frac{1}{4}$ " ball.
2. Form the smallest ball into an egg shape to make the head.
3. Use the tooth-picks to make holes for connecting all parts after baking them.
4. Tilt the head a forward a little.
5. You can either use match-sticks for arms and legs (it's easier and they'll be sturdy), or you can make them from dough.
6. Form little balls then flatten them to make the hands. Use larger balls for the feet.
7. Now it's time to bake your parts. Ask a grown-up to help you with this part.
8. Once everything is cooled off, use the tooth-picks and glue to put it all together.
9. Paint it any color you want (but, we're orange you know). And presto! You have your very own Gallavant!
